A Tachyonized blend of liquid extracts:

- Hawthorn berry, leaf and flower (Crataegus oxy.)	25%
+ Olive leaf (Olea europaea)	25%
- Linden flower (Tilia cordata and platyphyllos)	20%
- Bean pod [without beans] (Phaseolus vulgaris)	20%
+ Mistletoe herb with berries (Viscum album)	10%

+ Fresh - Dried

(contains Grain Alcohol (44-49%), distilled water and vegetable glycerine)

ACTION

This compound has a general action as a **cardiovascular tonic**, and is specific for normalizing **high blood-pressure**. Also serves as a mild **diuretic** to remove excess water from the system.

POTENTIAL USES

To aid the treatment of essential **hypertension** and its associated **arteriosclerosis**. May assist with headaches, dizziness, vertigo and irritability associated with hypertension.

NORMAL DOSAGE

15 to 20 drops in a little water, three times per day between meals.

CONTRAINDICATIONS AND CAUTIONS

Do not take this compound during pregnancy.

High blood-pressure can be very serious if left untreated or treated improperly. This condition should be monitored and treated under the supervision of a qualified physician.
